

A scatter plot showing the distribution of 'Fake' (blue dots) and 'Genuine' (orange dots) data points. The plot is enclosed in a black rectangular frame. A legend in the top right corner identifies the colors: blue for 'Fake' and orange for 'Genuine'. The 'Genuine' data points form a large, dense, roughly circular cluster in the upper half of the plot. The 'Fake' data points form a smaller, more elongated cluster below the 'Genuine' cluster, with some overlap between the two groups. The background is white.
