

A scatter plot showing the distribution of 'Fake' (blue dots) and 'Genuine' (orange dots) data points. The 'Genuine' points form a large, dense, roughly circular cluster in the lower half of the plot. The 'Fake' points form a smaller, more elongated cluster in the upper half, overlapping with the top of the 'Genuine' cluster. A legend in the top right corner identifies the colors: blue for 'Fake' and orange for 'Genuine'.
